

LIST OF ORGANIZATIONS NEEDING A HELPING HAND

Every student who received **The Future Begins Today Last Dollar Grant** is asked to contribute a **minimum of 15 hours** of volunteer service to the Troy community each year the grant is received. It is to be completed before...If you are a **college senior** you must complete the 15 hours before January 1st. If you are a **high school senior**, do not complete the service before applying for the grant. It is only after receiving the award that the community service is required. This service must be done in Troy and you may not be paid for it or given credit for it with any other program or class. Most students volunteer through churches and larger organizations in Troy, but a few have volunteered in The Future Begins Today office, or helped elderly neighbors with lawn work or errands. The Community Service Form will be helpful to verify your service. For your convenience, print it off of the website (www.thefuturebeginstoday.org).
